

Stock Management

PEDRO RODRÍGUEZ PÉREZ

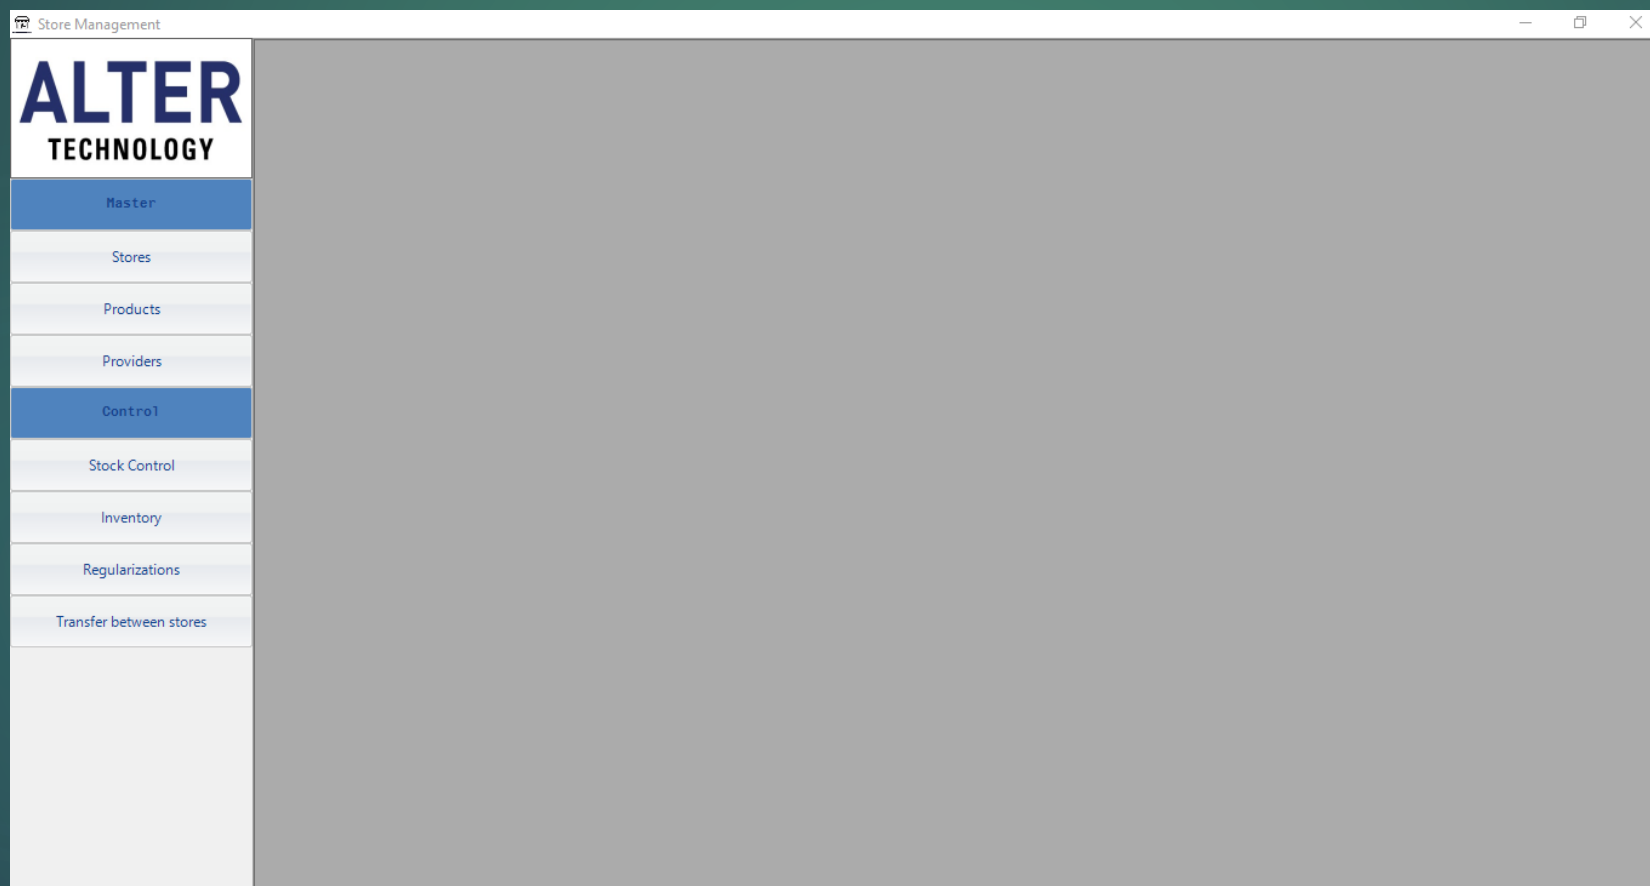

Introducción

- ▶ La finalidad de esta aplicación consiste en gestionar el control de consumibles en los almacenes de la empresa, independientemente del área o lugar de trabajo en el que se encuentre dicho almacén.

Tecnología usada

- ▶ Lenguaje: C#
- ▶ Entorno de desarrollo y ejecución: Visual Studio Community/.Net Framework
- ▶ Base de datos: SQL Server

The screenshot displays the ALTER TECHNOLOGY Store Management application. The left sidebar contains a navigation menu with the following items: Master, Stores, Products, Providers, Control, Stock Control, Inventory, Regularizations, and Transfer between stores. The main content area is divided into two panes. The left pane, titled 'Store Management - [Products]', features a search bar with fields for Reference, Name, and Type. Below the search bar is a table labeled 'Products Records' with columns: Select, Reference, Product Name, and Id Type. The table contains three rows: 'Component one', 'Component three', and 'Component two'. The right pane, titled 'Providers List', shows a table with columns: ProviderCode, ProviderName, SAPProvidercode, Address, City, PostalZip, and Country. It lists three providers: 'Proveedor 1' (Alejandra editada), 'Proveedor 2' (Pepe Álvarez), and 'Proveedor 5' (Luis Álvarez). Below the Providers List table is a section for 'Products Providers' with tabs for Stock and Providers. The Providers tab is active, showing a table with columns: Reference, ProviderCode, ProviderReference, Price, DeliveryDays, and DefaultProvider. It contains one row for 'Component one' linked to 'Proveedor 1'. At the bottom of the Providers tab, there are 'Add' and 'Delete' buttons. The bottom of the main window has a global toolbar with 'Edit', 'Add', and 'Delete' buttons.

Funcionalidades Control

Funcionalidades Control

The screenshot displays the 'Stock Control' application window. It features a 'Filters' section with a search bar and 'Apply filter' and 'Reset Filter' buttons. Below this is a table titled 'Inventory List' with columns: IdInventory, IdStore, InventoryDate, InventoryUser, and Remarks. The table contains three rows of data. At the bottom of the window, there are buttons for 'Add', 'Cancel', 'New Inventory', 'New Regularization', and 'New Transfer'.

IdInventory	IdStore	InventoryDate	InventoryUser	Remarks
1	1	01/01/2022	rperez	
2	1	01/01/2021	rperez	
3	2	01/01/2021	prodriguez	

Funcionalidades Control

The screenshot displays a 'Stock Control' application window. On the left, there are three sections: 'Filters' with a 'Store' dropdown, 'Products' with an 'IdInventory' dropdown, and 'Locations' with an 'IdStore' dropdown. At the bottom of the main window are three buttons: 'New Inventory', 'New Regularization', and 'New Transfer'. A modal dialog box titled 'Form1' is open in the center, featuring a 'Regularization list' table. The table has five columns: 'Reference', 'ProductName', 'IdRegularization', 'IdStore', and 'Location'. It contains three data rows. Below the table is a large grey rectangular area. At the bottom right of the dialog are 'Add' and 'Cancel' buttons.

Reference	ProductName	IdRegularization	IdStore	Location
		1	1	
		2	1	
		3	2	

Funcionalidades Control

The screenshot displays the 'Stock Control' application interface. A 'Form1' dialog box is open, titled 'Regularization list'. The dialog contains a table with the following data:

Reference	ProductName	IdRegularization	IdStore	Location
		1	1	
		2	1	
		3	2	

Below the table, there is a large grey rectangular area. At the bottom right of the dialog, there are two buttons: 'Add' and 'Cancel'. The 'Add' button has a plus icon, and the 'Cancel' button has an 'X' icon.

The background application window shows a sidebar with sections: 'Filters' (containing a 'Store' dropdown), 'Products' (containing an 'IdInventory' dropdown), and 'Locations' (containing an 'IdStore' dropdown). At the bottom of the application window, there are three buttons: 'New Inventory', 'New Regularization', and 'New Transfer', each with a plus icon.
